

TF1009CC - Castor Correction Bushes Land Rover Discovery 2 – All Models Fitting Instructions

Check wheel alignment before starting and record the castor settings

Photo 1 – Removal of the trailing arms can be performed with the vehicle at ride height and on the ground as long as only one trailing arm is removed at a time. A bottle jack may be used to stop the differential from twisting.

Remove the mounting nut or bolt retaining the front trailing arm to chassis mount.

Remove the front trailing arm to differential mounting nuts and bolts. It may be necessary to loosen the nuts on both side arms and use a bottle jack under the differential to stop the differential from twisting.

Photo 2 – Remove the front trailing arm and press out the two original trailing arms to differential bushes. Lay the arm on the template provided, and scribe the alignment marks as shown in photo. This will be the guide for locating the new replacement offset bushes.

WARRANTY & DISCLAIMER - TerrafirMa products are warranted free from defects in materials and workmanship for a period of 12 months from the date of retail invoice. TerrafirMa does not warrant that the products manufactured or marketed by it comply with the laws of the country where those goods are purchased or used. It is the sole responsibility of the purchaser to ascertain whether products being purchased, or the fitting of those products to any other object, comply with local laws. This warranty covers structural defect and workmanship but does not cover finishes, labour charges for removal or refitting, freight costs, accident damage, misuse or abuse, damage due to incorrect or improper fitment or application, modified product, faulty design or consequential damage of any kind. Damage or defects caused by collision, alteration, improper installation, road hazards, adverse conditions or usage for any other purpose other than normal private usage are not covered by this warranty. TerrafirMa shall not be liable for any other claim relating to the use of the product and any indirect special or consequential damage or injury to any person, company or other entity. All claims must be accompanied by the original retail invoice and should be submitted to the supplying Allmakes 4x4/TerrafirMa distributor. This warranty covers only the replacement of the product or part concerned. The decision remains solely at the discretion of Allmakes Ltd. The information contained in this catalogue was correct at the time of going to press. Allmakes/TerrafirMa and its associated companies reserve the right to alter the range and any product specifications without notice. Always consult your Allmakes/TerrafirMa distributor for the latest product information and specifications. The TerrafirMa range of products is constantly being evaluated for enhancement and improvement to make sure the level of quality and performance is as expected.

Photo 3

Photo 3 – Press the new offset bushings into the arms, aligning the centre of the tubes in the bushings with the template supplied.

Note: Check that the distance between the hole centres is 189mm, as recommended by the template. This will ensure ease of refitting.

Photo 4

Photo 4 – Refit the arm in the reverse order of removal, during installation check that the trailing arms have sufficient clearance between the top of the arm, and the differential housing bracket. It may be necessary to remove some of the flashing from

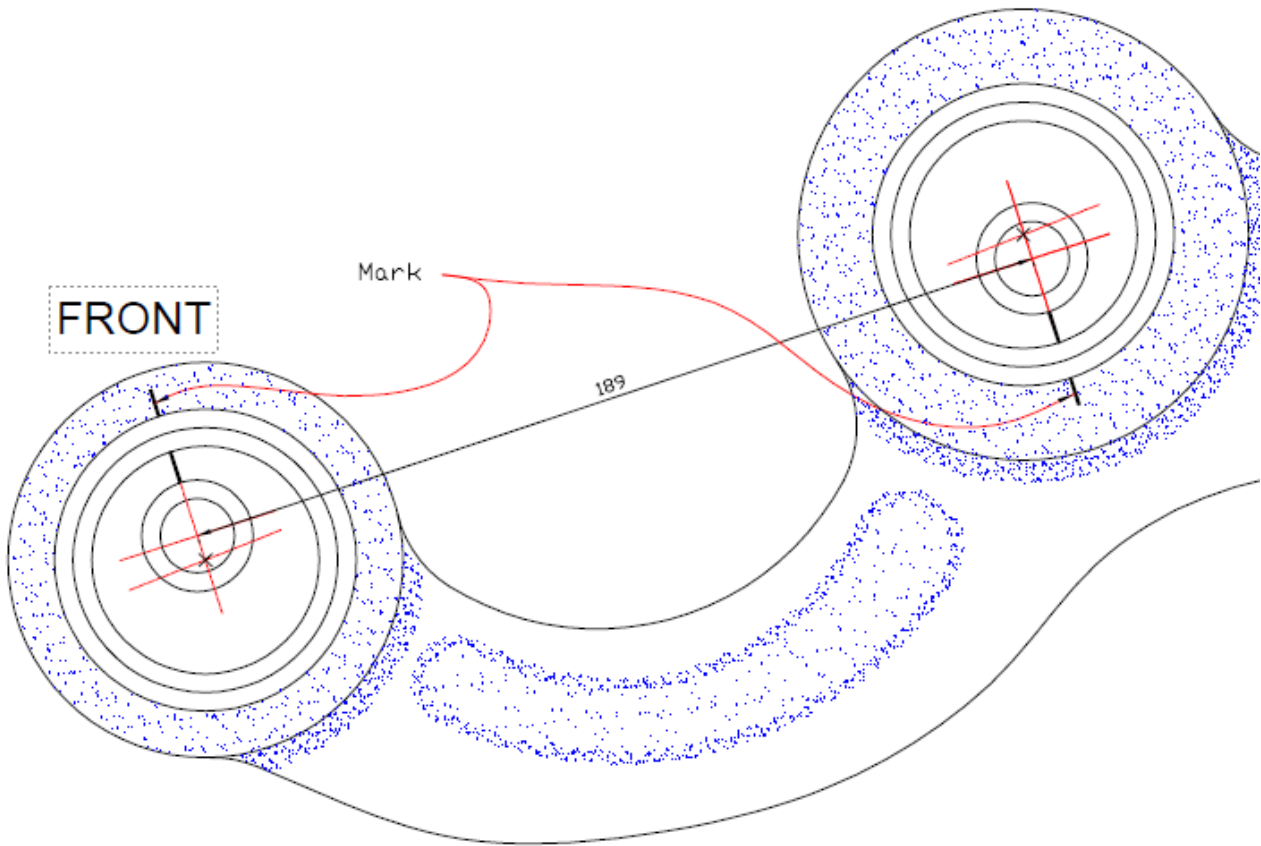

Photo 5 (below) -

Fitment for drivers side and passenger side trailing arms to increase caster. Bush and Tube fitment is identical for both arms.

Lay the trailing arm on this template and mark the bush positions as indicated.

Press in the bush with the hole closest to the mark. Distance between hole centres must be 189 ± 1 mm for ease of fitting.
