

**TF972: TERRAFIRMA ROOF RACK****DISCOVERY 3 & 4****FITTING INSTRUCTIONS**

This roof rack is designed to fit vehicles with or without factory fitted roof tracks.

Carefully prize up the front section of the roof channel cover strips to reveal the front mounting point threaded insert, drill a hole through the cover strip and insert the 6mm studs into the threaded hole and replace the strips.

For vehicles with the alloy tracks fitted the rack sits directly onto the tracks and uses the T-bolts to slide along the track to the mounting points to bolt it down.

Position the roof rack on the vehicle using the front studs as a guide and line up the mounting brackets with the T-bolts in the tracks. Do not tighten any fixings at this point.

You will notice there are 2 mounting points on the third bracket, please ensure the T-bolts attach securely in the track and do not line up with the entrance slots.

With the 6 roof top mounting points aligned select suitable spacers from the kit to fit between the rack and the cover strip to support the front of the rack. Once everything is located and the rack is sitting level and square. tighten all the fixings.

For vehicles without the alloy tracks fitted the process is the same, start at the front and locate the 8 threaded inserts in the roof channel, drill through the cover strip and replace the strip.

Carefully position the roof rack in position using rags to prevent the rack scratching the roof. Select suitable spacers from the kit and place them between the rack mounting brackets and the cover strip. When you are satisfied the rack is sitting level and square tighten all the fixings.

You will notice the front of the rack incorporates 4 x welded on tabs for spotlights to attach to and there are mounting plates at the sides and rear for TF719 scene lights.

The following spoilers are also available:

TF972SP: Spoiler with recesses for spotlights

TF972NLSP: Spoiler, smooth front, no spotlight recesses

WARRANTY & DISCLAIMER - TerrafirMa products are warranted free from defects in materials and workmanship for a period of 12 months from the date of retail invoice.
